WORK EXPERIENCE

Professional Web Developer and Designer Freelancer

Oct 2022 – Present

Freelance

Remote

- Designed and developed multiple websites for local businesses, enhancing their online presence and functionality.
- Achieved a 4.8 rating on freelance platforms, demonstrating consistent client satisfaction and high-quality work.
- Implementing SEO best practices to improve website visibility and traffic.
- Collaborating with clients to understand their needs and translate them into effective digital solutions.
- Creating visually appealing and user-friendly website designs.
- Conducting website testing and debugging to ensure optimal performance and user experience.
- Providing ongoing maintenance and updates to ensure websites remain secure and up-to-date.
- Writing clean, efficient, and maintainable code using HTML, CSS, JavaScript, and various frameworks such as React.

JetBlue

Feb 2021 – Feb 2022

Training Pilot

Mesa, Arizona

- As a selected Training Pilot for the JetBlue Gateways program, with approximately 50 flight hours, I developed the ability to perform specific tasks under high-pressure conditions while prioritizing the safety of those around me.
- Technical proficiency in understanding and operating advanced avionics and flight control systems.
- Situational awareness was maintained through constant monitoring of the aircraft's environment and status to make informed decisions.
- Effective communication skills with crew members and air traffic control to ensure safe and efficient flight operations.

Sterling Biomedical

Jul 2019 – Apr 2020

Software Engineer

Moonachie, NJ

- Collaborated with cross-functional teams to design, develop, and maintain software solutions for biomedical applications.
- Implemented software solutions in compliance with industry standards and regulatory requirements, such as FDA guidelines for medical device software.
- Conducted thorough testing and debugging of software to ensure reliability, accuracy, and safety in medical environments.
- Developed robust and scalable software solutions using Java and Python

Meadowlands Hospital Medical Center

Jan 2015– Dec 2018

Emergency Room Volunteer Doctors Assistant

Secaucus, NJ

- Assisted doctors and nurses with patient care and preparing patients for examinations.
- Maintained a clean and organized environment in the emergency room, ensuring that medical supplies and equipment were readily available.
- Provided comfort and support to patients and their families during stressful and emotional situations.
- Volunteered for approximately 200 hours, contributing valuable time and effort to support the mission and objectives of the hospital organization.

EDUCATION

New Jersey Institute of Technology

Computer Science

Newark, NJ

- 2019 NCAA MAAC Swimming & Diving Champion
- Division 1 Athlete, Swimming & Diving Team
- 4-year varsity team member
- Competed in coding marathon competitions (2020, 2021), showcasing problem-solving skills and teamwork.
- Member of the Association for Computing Machinery
- Completed coursework in web design, front-end development, back-end development, database management, and software engineering
- Earned certifications in web development frameworks (e.g., React), programming languages (e.g., HTML, CSS, JavaScript, Python, PHP), and platforms (e.g., WordPress, Shopify), demonstrating proficiency in key tools and technologies essential for effective web development.

CERTIFICATIONS

- Google UX Design Professional Certificate: Demonstrated expertise in user experience design principles and practices through hands-on projects and assessments.
- Webflow Certified: Proven proficiency in using Webflow for designing and developing responsive websites with advanced interactions and animations.
- Odin Project React Certification: Acquired in-depth knowledge of React, including component-based architecture, state management, and hooks, through practical coding exercises.
- Odin Project HTML & CSS Certification: Mastered HTML and CSS fundamentals, including layout techniques, responsive design, and modern web standards, through comprehensive coursework and projects.

TECHNICAL PROFICIENCIES

- HTML, CSS, & JavaScript: Expertise in creating structured, responsive, and visually appealing web pages using modern HTML and CSS techniques, with strong ability to write and debug JavaScript for interactive and functional web applications.
- React: Proficient in building dynamic, component-based user interfaces with React, including state management and hooks.
- Adobe XD & Figma: Skilled in designing user interfaces and experiences with Adobe XD and Figma, including prototyping and collaborative design.
- Webflow: Experienced in developing responsive websites with Webflow, leveraging its visual development platform for advanced interactions and animations.
- Java, Python, & C: Solid understanding of Java for building robust applications, competent in Python for web development and data analysis, and basic knowledge of C programming fundamentals.
- Photoshop: Proficient in Adobe Photoshop for creating and editing images, graphics, and visual content.
- Microsoft Office (Word, PowerPoint, Excel, etc.): Advanced skills in Microsoft Office suite for document creation, data analysis, presentations, and more.
- Aviation: Practical experience and knowledge in aviation, including understanding of flight operations, avionics, and safety protocols.

ADDITIONAL ACTIVITIES

- Actively contribute to open-source projects on platforms like GitHub, demonstrating a commitment to continuous learning and collaboration within the developer community.
- Participate in hackathons or coding competitions, challenging myself to solve real-world problems and showcase creativity and problem-solving abilities in a time-constrained environment.
- Ranked 1st in New Jersey for 100 Yard Butterfly (Youth)
- 1st Place, TOUGHMAN Triathlon Sprint 2017 (Croton Point Park, Westchester, NY)
- Named one of the Top 50 USA Swimmers in New Jersey
